This equipment has been tested and approved by our instructors.

All equipment that is needed or required is available in our dojo store.

Students must have approval of their instructor before purchasing weapons.

All safety equipment purchased outside the school must be approved by the instructor. This is to protect both the other students as well as the student wearing the equipment.

GOLDEN PYRAMID KARATE

The Golden Pyramid Karate program includes instruction in Karate, Tae Kwon Do, Judo, Ju Jitsu, Kobudo, and Kick Boxing

Our program is developed to fit your abilities and to help improve upon them. Age is not a issue only the desire to learn is necessary. They wanting self defense, sport karate, or exercise, this is an ideal program for you. It is never too late to learn !

Replace that "I can't attitude with I can.

The Golden Pyramid Approach

The goal of the Golden Pyramid is to offer superior training in a small class environment. Many of our techniques use modern training methods to achieve maximum flexibility, speed, and agility. Our instructors teach the individual not the group. In our youth and young kicker's programs the foundation for the pyramid begins; this continues to the very top with our adult programs. Our students are taught to respect themselves and to rely on their abilities. Role playing is done with the younger students to teach values. Short term and long term goals are set to focus on results. Positive reinforcement replaces barking of commands and orders. The "I can't" attitude is replaced with the "I can".

Our adult programs are designed for maximum results in both mental and physical achievements. No two individuals are the same, yet each can achieve the same results by following different paths. Those taking our adult courses can expect to become more agile, limber, and physically fit. Modern sports training methods are used to enable high kicks and quick reflexes. A complete system of training in karate, tae kwon do, kobudo, and tai chi develops a well rounded martial artist.
